

Power Wheel[®]

PLANETARY GEAR DRIVE SYSTEMS

- ▶ **Pick Your Power!** Combine your Power Wheel[®] final drive with our new A2 Series integral parking brake for a compact system...ready to perform.
- ▶ **Efficient.** Our wide selection of planetary gear drives outperform the competition hands down. With over 95% efficiency, these drives offer reduced fuel consumption when compared to mechanical systems and differential style planetaries.
- ▶ **Rugged.** Power Wheels[®] deliver longer service life. Their ability to perform under the harshest conditions while maintaining positive traction and superior maneuverability is why so many companies *insist* on Auburn Gear Power Wheels for all their applications.
- ▶ **A Powerful Combination.** Need a powerful gear drive combination? We've got the solution! Just contact us for the technical and cost-saving support you need to select the Power Wheel[®] Gear Drive System best suited for your specific application.
