TRADE-IN PROGRAM

HEARING AID TRADE-IN PROGRAM

*Help someone hear better.
Recycle your old hearing aids.*

TRADE-IN PROGRAM

P.A.T. Hearing Clinics provide many services to the hearing impaired in our community who need financial assistance. One way of being able to provide this much needed service is through the recycling of hearing aids. We accept donated hearing aids at any time, but we also offer a trade-in program. If you are in the process of upgrading to new instruments, you can receive a significant discount if you trade in your old hearing aids.

TRADE-IN VALUE

| | |
|-------------------|-----------------------|
| Under 4 years old | \$150 per hearing aid |
|-------------------|-----------------------|

| | |
|------------------|-----------------------|
| Over 4 years old | \$100 per hearing aid |
|------------------|-----------------------|

We will apply the trade-in value of your old hearing aids to your personal hearing aid credit account. The trade-in value of your old instruments along with any other accumulated money in your hearing aid credit account may be applied as a discount toward the purchase of new hearing aids.
