

If you're still processing purchase orders this way,

your competition is smiling. :)

The competition loves it when you waste money. Now you can save time and money with Paramount's B2B-WorkPlace™ automated purchasing system by eliminating costly paper trails, reducing operating expenses and boosting profits.

Paramount offers you all the advantages of e-procurement, and a whole lot more...

◆ **Control of Spending.** This powerful Web-based system puts you in touch with suppliers worldwide – right from your desktop – to help you make better buying decisions.

◆ **Instant Data Access.** Why wait for end-of-month reports to see how the company is doing financially? Find out in time for you to do something about it.

◆ **Comprehensive Project Accounting and Employee Time and Expense Tracking System.** Organize labor and material costs for management reporting that really means something. Extend the analytical power of traditional procurement data by organizing labor and material costs into useful management information.

◆ **Unparalleled Customer Service.** From design to deployment, our mid-market focus means tailored attention to your company's individual needs.

B2B-WorkPlace™ makes smart business easy and affordable. Wipe that smile off the competition's face and call 1-800-725-4408, or visit us on-line at www.b2b-workplace.com.
